Upwork (Top Rated)

Agentic AI Engineer — AI LLM Engineer

+92 340 1807019

Karachi, Pakistan

## PROFESSIONAL SUMMARY

---

AI Engineer and Data Scientist with 3+ years of experience building production-grade machine learning systems and AI-powered applications. Specialized in Generative AI, LLM applications, RAG pipelines, and AI agents. Delivered 27+ projects with consistent 5-star ratings on Upwork across industries including finance, e-commerce, healthcare, and geoscience. Experienced in designing end-to-end AI platforms from data pipelines to scalable deployment.

## TECHNICAL SKILLS

---

**AI & Machine Learning:** Generative AI, LLM Fine-tuning, Retrieval Augmented Generation (RAG), AI Agents, NLP, Deep Learning, CNNs, Transformers, Time Series Forecasting, Anomaly Detection

**Frameworks:** LangChain, LangGraph, CrewAI, LlamaIndex, HuggingFace Transformers, OpenAI APIs

**Programming:** Python, SQL, R, Bash

**ML Libraries:** PyTorch, TensorFlow, Scikit-Learn, XGBoost, LightGBM

**Data Science:** Data Analysis, Feature Engineering, Statistical Modeling, EDA, Data Visualization

**Vector Databases:** Pinecone, Weaviate, Chroma

**Backend:** FastAPI, REST APIs, Microservices

**Data Infrastructure:** Apache Spark, Airflow, Prefect, Supabase, PostgreSQL

**MLOps:** Docker, MLflow, CI/CD, Model Monitoring

**Cloud:** AWS, Google Cloud, Azure, Vercel

## PROFESSIONAL EXPERIENCE

---

### Freelance AI Engineer

Upwork (Top Rated)

Jan 2023 – Present

- Designed and deployed AI-powered applications including predictive analytics systems, LLM applications, and automation platforms.
- Built multiple **RAG pipelines** integrating vector databases and LLMs for enterprise document intelligence.
- Developed **AI agents** for business process automation using LangChain and CrewAI.
- Created an **AI trading analytics dashboard** integrating ML predictions, anomaly detection, and real-time financial data pipelines.
- Engineered **AI document intelligence systems** extracting structured data from passports, IDs, and financial documents.
- Delivered 27+ AI projects with consistent **5-star ratings** and long-term client collaborations.

### AI Collaborator

Omdena

2023

- Contributed to international ML project for early autism detection in toddlers.
- Performed feature engineering, data preprocessing, and model optimization within a global team.

## SELECTED AI SYSTEMS

---

### **Autonomous AI Video Agency (Agentic System)**

- Designed a multi-agent AI system capable of generating full marketing videos from a single text prompt.
- Implemented autonomous agents for script writing, storyboard generation, voice synthesis, and video composition.
- Integrated LLM orchestration with automated media pipelines to produce short-form content for marketing and social media.

### **Enterprise AI Knowledge Assistant (RAG Platform)**

- Built an enterprise knowledge assistant using Retrieval Augmented Generation (RAG) for querying large internal document collections.
- Implemented document ingestion pipelines, embedding generation, and vector search using modern vector databases.
- Developed conversational interfaces enabling employees to interact with organizational knowledge bases using natural language.

### **AI Crypto Intelligence Dashboard**

- Developed real-time cryptocurrency monitoring dashboard integrating market data APIs and ML-driven analytics.
- Implemented anomaly detection and predictive indicators for short-term trading insights.
- Built automated data pipelines and interactive dashboards for real-time market analysis.

### **AI Agent Automation Framework**

- Built modular AI agent framework capable of executing autonomous workflows for research, data processing, and decision support.
- Implemented agent orchestration with task planning, tool usage, and multi-step reasoning.
- Designed scalable architecture for integrating LLM agents with external APIs and databases.

## EDUCATION

---

### **Bachelor's Degree in Economics**

Virtual University of Pakistan

### **Associate of Science in Economics**

University of Sargodha

## CERTIFICATIONS

---

Agentic AI Specialization By ED Donner Udemy

Deep Learning Specialization – DeepLearning.AI

Machine Learning with Python – IBM

Upwork Skill Certification – Machine Learning

## LANGUAGES

---

English (Professional)

Urdu (Native)
